

## ENVIRONMENT POLICY

**ANKASAN CASTING AND MACHINING**, with a management mentality faithful to environmental awareness principle; has determined the behaviors regarding its' employees, customers, society and its' environment, established this environmental policy and published and shared it with all the parties.

ANKASAN, to preserve the continuity of eco-substantive production, has incorporated and ensured the sustainability of a structure in conformity with ISO14001:2015 Environmental Management System.

- Reducing the consumption and ensuring the efficient use of natural resources to maintain the environmental sustainability,
- Avoiding environmental pollution and continuously improving the environmental performance by following up the technological developments with their scientific analyses,
- Conducting risk analyses of the existing and newly planned processes and carrying out activities intended to lower the risk levels,
- From the planning phase to the end of the waste life cycle, reducing and keeping the possible environmental impacts under control,
- Having the recyclable wastes to be sorted for recovery,
- Reducing the wastes in their sources as much as possible and recycling them,
- Provide training on environment to its' employees and raising the environmental responsibility awareness,
- Setting environmental goals and objectives annually and ensuring continuous improvement focused on environment,
- Carrying out activities encouraging the reduction of resource consumption and waste outcome,

Determined as the company policies, we adopted the issue above as our responsibility and undertake to fulfill as Ankasan family.

**Ahmet Yaşar**
